#	Process step	HSE Performance Target Setting and Reporting	Responsibilities	Connected Documents and Templates
1	Target setting	<p>HSE targets shall be set in a way that they drive the improvement of overall company and business level HSE performance. HSE targets are set on an annual basis :</p> <ul style="list-style-type: none"> <li>• Corporate target</li> <li>• The corporate target is separated into divisional targets for each division/business unit, but other lagging and leading divisional targets are also defined.</li> <li>• An HSE-related (leading) target is given to all managers to their individual annual targets .</li> </ul>	<p>A – Businesses R – Group HSE C – relevant HSE units</p>	
2	Define Group-level indicators	<p>HSE performance shall be monitored through the predefined targets and reported in line with MOL Group reporting requirements (indicators, definitions). Group reporting requirements are defined to have a unified approach towards performance reporting. Group requirements are based on industry best practices and can be different from local legal reporting requirements. Appendix 2a and 2b of this regulation contain all HSE-related Performance Indicators relevant on Group-level. Definition of indicators is the responsibility of the Businesses with involvement of Group HSE and other relevant HSE units (Country, Legal Entity Business Unit/OpCo HSE). Group HSE is accountable for the reporting processes.</p>	<p>A – Group HSE R – Businesses C – relevant HSE units</p>	Appendix 2a,b of this regulation.
3	Operate reporting system	<p>Group HSE is responsible for managing Group-level HSE Data Management System with the involvement of relevant HSE units (Country, Legal Entity Business Unit/OpCo HSE). The system is a unified IT system licenced from Enablon, businesses are informed about all major changes.</p>	<p>R – Group SD&amp;HSE C – relevant SD&amp;HSE units I – Businesses</p>	Group HSE Data Management System
4	Report data	<p>HSE KPI/PIs are reported by relevant HSE units (Country, Legal Entity Business Unit/OpCo HSE) and functional units (HR) via MOL Group HSE Data Management System based on the frequencies defined in this document's appendices, while businesses are consulted. Relevant HSE units shall comply with MOL Group HSE performance, monitoring and measurement requirements and shall follow the requirements defined in this document (and its appendices), see details in Appendix 2a and 2b. The data shall be converted in accordance with Annex 2c. Data reporters are responsible for data quality and reliability. This Process Description does not regulate Country, local, country level HSE reporting requirements; those shall be regulated and performed locally (if necessary) to fulfill all relevant external and internal HSE-related reporting (e.g. to authorities).</p>	<p>R – data reporters (relevant HSE units, Functional units (HR)) C – Businesses</p>	Appendix 2a,2b and 2c  Templates of MOL Group HSE Data Management System
5	Validate data	<p>In the HSE Data Management System after the data is reported a one-level validation workflow is defined. Validator rights are predefined in the system and are given to the leaders of relevant HSE units (Country, Legal Entity Business Unit/OpCo HSE). In case of rejection data reporters shall correct data according to process step 3. Data reporters and validators have a common responsibility for data quality and reliability. Data is deemed to be reported when it is finally validated.</p>	<p>R – relevant HSE unit leaders</p>	Validated data
6	Use data	<p>HSE Data Management System is the only official source of information that shall be used by all responsible for reporting in MOL Group processes including but not limited to:</p> <ul style="list-style-type: none"> <li>- internal and external reporting of HSE performance</li> <li>- target setting</li> </ul>	<p>R – responsible for reporting</p>	Internal and external reports of MOL Group HSE Data Management System
