

UNDP Global Compact

In June 2005, MOL Group joined the Hungarian membership of the UNDP Global Compact, to address, with other members, the highly important developmental challenges facing Central & Eastern European Countries. MOL Group is committed to supporting the ten key Global Compact principles with respect to human rights, labour rights, protection of the environment and fighting corruption. We aim to integrate them into our strategy, culture and everyday operations and promote them within our sphere of influence.

Business Council for Sustainable Development in Hungary

In 2006 MOL became member of the Business Council for Sustainable Development in Hungary, which was formed in 2005 as the Hungarian chapter of the World Business Council for SD. The aim of this international network is to promote the concept as well as the implementation of sustainable development among member corporations and other business enterprises. In addition, it also provides a consultative forum for managers and experts committed to these principles. According to their means, member corporations take an active role in the work of the Council, strive to integrate sustainability principles into their working practices and share their knowledge and experience with others. By its membership, clearly signals its commitment to support and aims to take a leading role in the field, both in Hungary and across the region.

Hungarian Business Leaders Forum (HBLF)

The Hungarian Business Leaders Forum (HBLF) is a non-profit association and representative body of local business executives, local representatives of international joint ventures and other influential business people in Hungary and is committed to promote responsible business practices that benefit business and society, and which help to achieve social, economic and environmentally sustainable development in Hungary. The Hungarian Business Leaders Forum, established in 1992 by the personal initiative of Prince Charles, aims to respond to those issues as a partner organisation of The Prince of Wales International Business Leaders Forum.

CONCAWE

MOL Group is member of CONCAWE, a professional association, in which the HSE Unit plays an active role. Its main objectives are to acquire pertinent scientific, economic, technical and legal information on environmental, as well as on health and safety issues and to communicate the findings to improve understanding of these issues by all stakeholders. MOL Group HSE has nominated representatives in the key management and working groups, dedicated to REACH implementation, Land Use Planning, Water Quality, Safety, Air Quality and Health. To facilitate efficient sharing of information inside MOL Group, HSE initiated the internal CONCAWE exchange forum which aims to make the best use of knowledge acquired in CONCAWE and harmonise MOL Group activities in these fields.

International Association of Oil & Gas Producers (IOGP)

The International Association of Oil & Gas Producers (IOGP) encompasses most of the world's leading publicly-traded, private and state-owned oil & gas companies, oil & gas associations and major upstream service companies. The association was formed in 1974 to develop effective communications between the upstream industry and an increasingly complex network of international regulators. Originally called the E&P Forum, in 1999 the name International Association of Oil & Gas Producers (IOGP) was adopted. An essential part of IOGP's mission is to represent the interests of the upstream industry before international regulators and legislators.

FuelsEurope

On behalf of its members, FuelsEurope develops positions and manages issues affecting the European Downstream Oil Industry - MOL has gained full membership-rights since joining the EU - and communicates these views to the European institutions and organisations.

In doing this, FuelsEurope makes expert and constructive contributions to the industry consultation process required by European treaties and through this process both promotes the oil industry views and enhances its reputation.

CEFIC

TVK, a member of MOL Group, was the first company among the new EU member states to be invited to join the European Chemical Industry Council. Thus, the company can now directly participate in decision-making and legislative processes, as well as in the representation of petrochemical business interests. CEFIC's objective is to maintain and develop a prosperous chemical industry in Europe, and continuously improve and promote best possible performance in economic, social and environmental terms.

Responsible Care

"Responsible Care" is a voluntary initiative of the chemical industry. The industry has committed itself to strict self-controls in order to promote improvements in all aspects of health, safety and environmental performance. Responsible Care was launched in Canada in 1985 and in Europe CEFIC coordinates the implementation through the national chemical associations in Europe. In Hungary, the Responsible Care program was launched in 1992 by the Hungarian Chemical Industry Association (MAVESZ), trade association and MOL Petrochemicals Plc. is a signatory from the beginning. INA d.d in Croatia joined Responsible Care initiative in September 2017.

Employers' Equal Opportunity Forum (MEF)

In Hungary the first professional and pressure group gathering employers, fighting for equal opportunity, has been established in 2010.

The MEF was initiated by Salva Vita Foundation, and it was founded with the participation of ten Hungarian and multinational companies: MOL, Budapest Bank, Chinoin, dm, Magyar Posta, Magyar Telekom, Manpower, MARS and Tesco.

The Forum's aims to draw the employers' attention to the following matters: employing disadvantaged target groups, taking part in activities of high social responsibilities, contributing to equal opportunity by giving professional support.

The founders - among which the biggest Hungarian employers can be found- would like to establish the international principles of equal opportunity in Hungary.

WASH (Water, Sanitation and Hygiene) at the Workplace Pledge

MOL Group is a signatory of the WASH at the Workplace Pledge.

The World Business Council on Sustainable Development (WBCSD) has founded the Pledge for Access to Safe Water, Sanitation and Hygiene (WASH) at the Workplace in order to address the issue of ensuring the vital human right of access to safe drinking water and sanitation. The initiative aims to ensure appropriate access to safe WASH for all employees in all premises under direct company control.
